NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Nature of Business

Planned Financial Programs, Inc. was incorporated in August of 1991. The Company's primary source of income is from commissions on the sale of mutual funds and variable annuities.

Use of Estimates

The Company prepares their financial statements using generally accepted accounting principles (GAAP), which require management to make estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates.

Cash Equivalents

The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are so near to their maturity that they present an insignificant risk of changes in value because of changes in interest rates to be cash equivalents.

Property and Equipment

Property and equipment are stated on the balance sheets at cost and do not purport to represent replacement or realizable values. Routine maintenance and repairs and minor replacement costs are charged to expense as incurred while expenditures that extend the life of these assets are capitalized. Depreciation is provided on both straight-line and accelerated methods over the estimated useful lives of these assets. Property and equipment are detailed in Note 2.

Income Taxes

The Company has elected to file its corporate income tax returns under the appropriate "S" Corporation provision of the Federal and State laws and, therefore, incurs no Federal income tax and only minimal State Franchise tax on its taxable income. Instead the shareholders are liable for individual taxes on their respective shares of the Company's taxable income.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2012

The Company has no allowance for commissions' receivable. It considers commissions receivable to be fully collectible within one year.

NOTE 2 - PROPERTY AND EQUIPMENT
